Acknowledgements

The authors gratefully acknowledge Dr. Fouad Lamghari for his valuable guidance and constructive feedback throughout this work. The authors thank Homaiza Saud and Fatima Dakalbab for advice provided during the preparation of the manuscript. The authors also acknowledge the Australian Institute of Marine Science (AIMS) and the collaborators involved in the development and public release of the OzFish dataset, which provided the foundation for the benchmark developed in this study.

Declaration of competing interest

The authors declare that they have no known competing financial interests or personal relationships that could have influenced the work reported in this paper.
